## Red Goals Gained

These 15 objectives, many affecting the United States, were set up by the Communist Party for 1961:

1. The seduction of American youth, through propaganda, pornography, pro-Red campus lectures, mobilization into "peace" fronts and bands of agitators, abolition of ROTC and nuclear research.
2. Admission of Red China to the UN.
3. Disarmament talks to achieve suspension of nuclear weapons tests.
4. Paralysis of the House Un-American Activities Committee and the Senate International Security Subcommittee through ridicule, student protests, defiant witnesses, cuts in appropriations.
5. A summit conference.
6. Conquest of Quemoy and Matsu. Removal of Chiang Kai-shek. Takeover of Taiwan or nullification of its standing among nations.
7. Absorption of West Berlin.
8. Simulated break between Soviet Union and Red China, to gain U.S. sympathy and confidence.
9. Communists established in leadership of African countries.
10. Takeover of Panama Canal under guise of nationalization by Panama or internationalization under the UN.
11. Use of Moscow-trained student

cadres to overthrow South and Central American governments.

12. Subtle propaganda to pry European nations away from U.S. influence and aid.

13. Special inducements to gain trade with the U.S., both for the USSR and Red China.

14. Expansion of cultural exchanges.

15. Infiltration, smearing, scorn of anti-communist groups.

It is now 11 years later. We have only to read this list to note that all but a handful of these Red aims have been realized. Every reliable newspaper should be furnished with such a list yearly, even monthly, since the FBI or Central Intelligence has this information from Red sources. The reading public deserves to know what the Reds are up to, in order to understand and form its own country's moves and objectives. And to frustrate communist aggression here. It has already made alarming gains.

What are Red plans and purposes for 1972? For 1973?
